### Does God Believe the Theory of Evolution?

By Robert Moak,  
President of CRSEF

#### **Part 1 - Where did the water that covers the earth come from?**

Evolution says it may have come from billions of comets crashing into the molten earth after it formed. This bombardment could have lasted for about one and a half billion years. The evolutionary timeframe indicates the earth was still molten after it was about three and half billion years old.

#### **Some problems with this idea:**

Comets usually do not collide with celestial bodies; such events have rarely been recorded.

Comets cannot last for even millions of years, as they melt when they rotate around the sun.

Not enough comets exist to account for the huge amount of water on and in the earth's crust.

Where is the evidence for billions of comets crashing into the earth?

#### **The biblical answer to the water covering the earth:**

*Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters.* Genesis 1:2 Thus, the earth was created completely covered by water! Then on the third day of creation, God separated the waters covering the earth into the seas, which then exposed dry land. *And God said, "Let the water under the sky be gathered to one place, and let dry ground appear." And it was so. God called the dry ground "land", and the gathered waters he called "seas". And God saw that it was good.* (Genesis 1:9-10).

There is an agreement between evolutionists and creationists that life as we know it could not exist on this earth without liquid water being present. God of course knew this, which is why He created it from water, and then covered it with water.

**Origin of Life, Part V**  
**The Age of the Earth**

By Eric Jesse Norman, Ph.D. (biochemistry)

Some time ago I read a statement by a scientist: "I now believe that God created life, but why did He wait billions of years."

The age of the Earth is continually advocated by experts in academia, the media and the entertainment industry that the age of the Earth is billions of years old. It might be interesting to document how often this idea is reinforced on the public.

But what does the Bible say and what do accurate scientific measurements show? The age of the Earth is thousands of years old not billions.

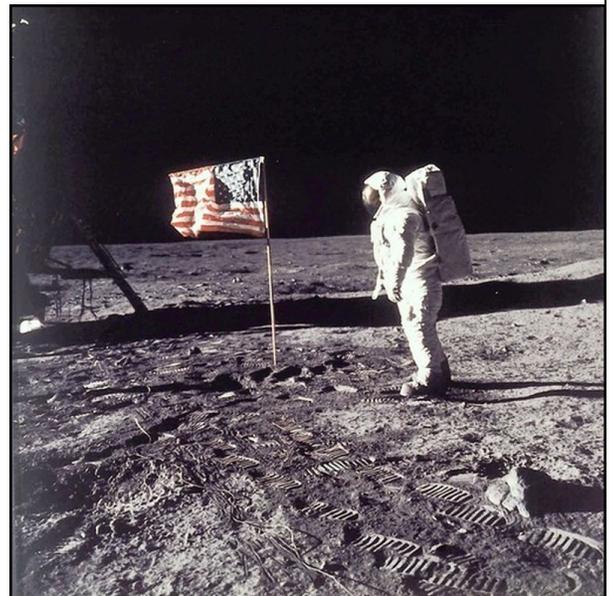

The most reliable record of the age of the Earth and the Universe is described in the Bible. *"Your word is truth"* John 17:17b (NASB).

*"In the beginning God created the heavens and the earth, Gen 1:1. God made the two great lights, the greater light (Sun) to govern the day and the lesser light (Moon) to govern the night; He made the stars also. Gen. 1:16. God created man in His own image, in the image of God, He created him, male and female. Gen.1:27 God saw all that He had made, and behold, it was very good. And there was evening and there was morning, the sixth day. Gen. 1:31.*

The moon is a reliable object to collect dust from the Universe. What level of dust on the moon did the Astronauts find?

The first rocket flight to land men on the Moon and safely return them to Earth was accomplished in July,1969 and followed by several other successful roundtrips in the 1970's.

This work was an amazing scientific accomplishment by a large team of highly qualified scientist. I was in the Army at Huntsville, AL in the 1960's and shared a house with two NASA engineers developing the Saturn V rocket that propelled the Apollo command module to the moon. Also a good College friend was working directly with the astronauts in Florida. This was a small sample of the thousands of dedicated scientists all over the United States working together to make the moon flights successful.

July 20th 1969, America's first Moon landing.

**"Be Fruitful and Multiply"**

By Terry Ivers

In my younger days, I always enjoyed watching magicians and illusionists amaze their audiences with card tricks and sleight of hand acts, as well as the really big disappearing acts such as making a train locomotive or the Statue of Liberty disappear. With age came wisdom, I now can only watch the same magic and illusions with a skeptical inquisitive point of view. I now understand that magicians and illusionists work very hard and spend a lot of money creating and perfecting their performances and that their stunts are not real magic.

I have been involved in CRSEF ministry work for over ten years, and have learned a lot of important things about the Creation and Young Earth debate. The current Creation Science movement was arguably started by *The Genesis Flood* book written by John C. Whitcomb, and Henry M. Morris, published in 1961. Whitcomb, a young Bible teacher and, seminarian joined Morris, a hydraulic engineer with a Ph.D. from the University of Minnesota who had presented "*The Biblical Evidence for Recent Creation and Universal Deluge*". *The Genesis Flood* was a refutation of *The Christian View of Science and Scripture* written by Bernard Ramm in 1954 which attacked the notion that "biblical inspiration implied that the Bible was a reliable source of scientific data, and ridiculed flood geology and the GAP Theory causing most Christian biologists to accept evolution.

Thanks to Whitcomb, Morris, and tenacious debaters such as Dr. Duane Gish (Institute for Creation Research), the Biblical Creation Science movement has accomplished many great things. But just as magicians and illusionists use deception and misdirection to accomplish their performances, I believe that the secular world has done the same thing to the Book of Genesis and the Bible. While during the past fifty years, while we were debating the importance of six literal days and the young age of the earth, we have let atheistic, humanistic scientists and theologians, completely, destroy the foundations of Christian Theology. In our enthusiasm for creation, we have given away original sin, male and female, marriage, and most importantly the sanctity of life.

**The Long War Against God**

*The Long War Against God* is the title of another book written by Henry M. Morris, first published in December, 1st 1989, it examines the war against atheistic humanism versus Almighty God and Biblical Theology. This war has never been more evident than in the current culture of death that we live in today, which allows those people that would rebel against God to push all kinds of social agendas that directly defile God's simple command to "be fruitful and multiply. In America today the current culture of death prevails over God's culture which promises abundant life.

<sup>1</sup> *My son, don't forget my teaching, but let your heart keep my commands;*

<sup>2</sup> *for they will bring you many days, a full life, and well-being.*

Proverbs 3:1-2 (CSB)

<sup>10</sup> *The thief comes only to steal and kill and destroy. I came that they may have life and have it abundantly.*

John 10:10 (ESV)

## EDITOR'S THOUGHTS?

By Terry Ivery

"I think the whole d... thing  
is overexaggerated. . ."

Harry R Truman, March 31st 1980  
The Longview Daily News

Summer 2022 is heating up, before long we all be complaining about the heat and looking forward to fall. Seasons come and seasons go but thanks to Genesis 8:22 we know that God will be faithful to us on this planet, even when we are not faithful to Him. In the current edition of the World by Design Newsletter, we hope that you will find information that will provide knowledge, inspiration, and tools for you to use to provoke the minds of those in the culture around you.

We at CRSEF and the World by Design Newsletter staff appreciate you for allowing us to enter your daily lives and we pray that we always provoke thought and reverence for Christ so that you can help build up and train warriors for God's Kingdom in the world that we live in. We should as Christians understand that we are in a spiritual battle against evil and ungodliness in our communities, states, and country! We want the newsletter to be encouraging and enriching to you as you proceed in your Christian walk.

The spiritual war between God and Satan has been going on since Genesis 3, so when you approach your children, friends, neighbors or co-workers we pray that we have helped equip you with sensible, logical and truthful answers to use to present the Gospel of Jesus Christ to them in a loving, and constructive way. So that God may renew their hearts, and minds, as He has done for us. This is the only process that the Bible gives us for people's salvation, everyone must accept Christ by faith, knowledge will never be enough.

We welcome your questions and concerns and ask that you send us information and articles that you would want us to share in upcoming issues of the World By Design Newsletter. Thank you for your interest and involvement in CRSEF and we look forward to hearing from you, we may be contacted at [editor\\_wbdnewsletter@twc.com](mailto:editor_wbdnewsletter@twc.com) or [rlmoak@fuse.net](mailto:rlmoak@fuse.net).

## CRSEF Monthly Program Schedule

CRSEF's monthly presentations are given at a public library or a local church on the third Thursday of each month. All presentations are planned to run from 7-7:45 PM followed by a 15 minute, or longer, Q&A time.

Please plan to come and **invite your friends and neighbors too**, as usual there is no charge for this program!

### CRSEF Monthly Program for July Thursday, July 21st 2022

**Thursday, 07/21/2022 - From 7-7:45 PM followed by a 15 minute, Q&A time**

A video will be shown entitled, "COCONINO: The Origin of Canyon's Sand Dunes" featuring Dr. John Whitmore of Cedarville University and David Rives.

Secular geologists point to the Coconino as an indication of desert sand dunes. Dr. John Whitmore, however, believes it contains strong evidence for disposition in a marine environment.

Does the Coconino sandstone in the Grand Canyon signify disposition in a desert or a marine environment?

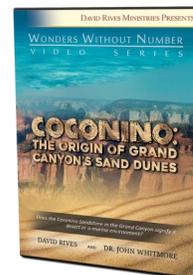

Dr. John Whitmore received his PhD in biology from Loma Linda University and teaches geology at Cedarville University. His publications include many GSA abstract, journal articles, book chapters and popular articles. He speaks internationally on the topics of creation, geology, and Noah's flood and has led many research trips in the Grand Canyon.

**Presenter:** Bob Moak will field questions after the video

**Location:** Brecon United Methodist Church

**Directions:** [Get Map and Directions](#)

**Website:** [Visit Website](#)

### CRSEF Monthly Program for August Thursday, August 18th 2022

**Thursday, 08/18/2022 - From 7-7:45 PM followed by a 15 minute, Q&A time**

A video will be shown entitled, "6 Facts About Fossils" featuring David Rives and Dr. John Whitmore of Cedarville University.

1. Fossils always indicate rapid burial.
2. Many fossils contain unfossilized soft tissues.
3. The fossil record is characterized by stasis, NOT evolution.
4. Multiple species and kinds appear suddenly in the same group.
5. Marine rock layers blanket ALL the continents.
6. Fossils cause a time dilemma for conventional geology.

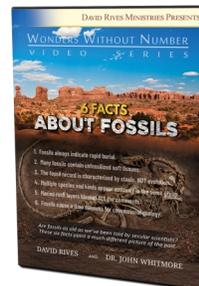

Dr. John Whitmore received his PhD in biology from Loma Linda University and teaches geology at Cedarville University. His publications include many GSA abstract, journal articles, book chapters and popular articles. He speaks internationally on the topics of creation, geology, and Noah's flood and has led many research trips in the Grand Canyon.

### CRSEF Monthly Program for September Thursday, September 15th 2022

**Thursday, 09/15/2022 - From 7-7:45 PM followed by a 15 minute, Q&A time**

A video will be shown entitled, "Fracking the Fables: The Origin of Earth's Oil" featuring David Rives and Dr. Tim Clarey of the Institute for Creation Research.

Oil decays over time. Why would we still have oil if it was millions of years old? Learn the truth about fossils fuels in Fracking

The Fables – The Origin Of Earth's Oil Video. Does it take millions of years for oil to form, and if so, are we on the brink of a crisis? Could oil and hydrocarbons even survive for millions of years? Learn about the origin of Earth's oil and how it points to a young Earth!

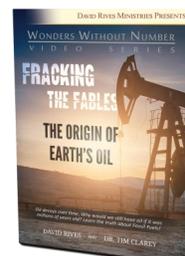

Dr. Tim Clarey has a Ph.D. in Geology from Western Michigan University. He worked as an exploration geologist at Chevron, developing oil drilling prospects and has published many papers on many aspects of the Rocky Mountains. Tim has authored two college laboratory books and several books on dinosaurs and the Bible. He is a geologist with the Institute for Creation Research.

### CRSEF Monthly Program for October Thursday, October 20th 2022

**Thursday, 10/20/2022 - From 7-7:45 PM followed by a 15 minute, Q&A time**

According to evolution, natural selection operates on random mutations and shapes organisms to fit their environments. Sound familiar?

In a cutting-edge lecture, ICR President, Dr. Randy Guliuzza shows how this mainstream model fails in light of new scientific research. Rather than being shaped by their environment, creatures themselves sense the environment and adapt accordingly, using internal sensors and brilliant engineering principles.

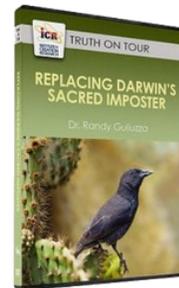

As a professional engineer and a medical doctor, Dr. Guliuzza is uniquely qualified to speak on a range of issues regarding creature adaptation. He brings together scientific arguments and biblical knowledge to conclude that the design explanation is the only one that matches the evidence. He demonstrates that evolution is not only biblically unacceptable, it is scientifically bankrupt. God, not nature, is the true Designer.

#### CRSEF Monthly Program for November Thursday, November 17th 2022

**Thursday, 11/17/2022 - From 7-7:45 PM followed by a 15 minute, Q&A time**

A video will be shown entitled, "The Horror of the Flood" The Most Catastrophic Event in History, featuring Mike Snavelly President of Mission: Imperative!

"If an event as cataclysmic as a global flood (and its implications) was ignored, for any reason, major errors or misunderstandings would creep into science and society" ~ Dr. Walt Brown

Indeed, many such misunderstandings have in fact crept in, such as evolutionary explanations for geological features (fossils, strata layers, mountain ranges, etc.). But, these very features speak of a rapid catastrophe, not slow processes. This session covers key aspects of the flood by answering many questions, including:

1. Is there physical evidence for a global flood?
2. Why was there a flood?
3. What happened, and how?
4. What was the ark really like? Could the animals really fit in?
5. What did the flood cause?

This seminar includes exclusive explanations and animations of the hydro plate theory, proposed by Dr. Brown. This theory provides a fascinating, yet biblically accurate and scientifically feasible look at how this deluge might have taken place. It also provides the answer for the issue of where all the water would have come from, and where it went afterwards!

The flood. A cataclysmic event that still has profound implications for us today. Furthermore, it provides us with a look at God's terrible judgment of the past, and a warning for the one to come!

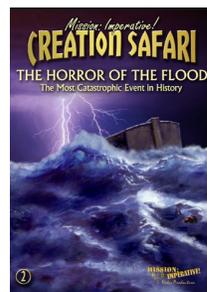

"Past failure to answer honest flood questions opened the door to evolution. Answering them will begin to reestablish the flood as Earth's defining geological event..." ~ Dr. Walt Brown

**Presenter:** Bob Moak will field questions after the video

**and Driving Instructions**

**Driving Directions:**

**Brecon United Methodist Church**

7388 E Kemper Rd  
Cincinnati, OH 45249-1033  
(513) 489-7021

**Driving Directions:**

**From I-71**

Merge onto I-275 W toward I-75  
Take the REED HARTMAN HIGHWAY exit- EXIT 47  
Turn LEFT onto REED HARTMAN HWY  
Turn LEFT onto ramp (To KEMPER ROAD)  
Turn RIGHT onto E KEMPER RD  
Proceed on Kemper Road about ½ mile, the church is on the left side of the road.

**From I-75**

Merge onto I-275 E toward I-71  
Take the REED HARTMAN HIGHWAY exit- EXIT 47  
Stay to the left and then from the right lane  
Turn RIGHT onto REED HARTMAN HWY  
Turn LEFT onto the ramp (To KEMPER ROAD)  
Turn RIGHT onto E KEMPER RD  
Proceed on Kemper Road about ½ mile, the church is on the left side of the road.

Enter the church from the parking lot through the back door; then proceed to the sanctuary, see the lighted sanctuary sign, just slightly to the left of the entry door.

[PAGE 1](#)

### The Sky is Falling!!

It was for good reason that Isaiah labeled us humans as sheep. Unless we're anchored in truth, we follow - no matter how odd, dangerous or nonsensical the idea. Winds of doctrine come and go. So do scientific ideas. It doesn't matter. Whatever everyone else is believing, or whatever everyone else is doing...that's cool. We'll just go along with it. Ba-a-a Ba-a-a!

Do you remember the accepted atmospheric "doom & gloom" scenario about 35 years ago? Back then, the "scientific" evidence pointed toward another looming Ice Age. How about this warning in a TIME magazine from that period: "The atmosphere has been growing gradually cooler for the past three decades and the trend shows no sign of reversing". A headline of a February 1973 issue of Science Digest warned: "Brace yourself for another Ice Age"

Well, well. I wonder what happened? Nobody's talking about that now. In fact, it's the opposite! Someone turned all the sheep around, and now they're all headed toward the global warming corral, worried as ever, convinced that something must be done -now, at all costs. "Everyone believes it." Ba-a-a Ba-a-a! (Must be all that new, "conclusive scientific evidence".)

In fact, according to a recent Gallup Poll of the Meteorological Society and the American Geophysical Society, 87% of the members do not believe that any global warming that might have occurred in the 20th century (and most studies indicate that since 1870, worldwide temperatures might only be up by as much as 1/2 of one degree) has been caused by you and me creating greenhouse gasses (by driving to work or spraying our underarms with Right Guard). Many believe that sunspot cycles are the true culprit.

***If it's  
not global  
warming,  
there's  
always other  
things to  
worry about!***

<https://www.missionimperative.org/>

[PAGE 1](#)

[\( Continued on page 12 \)](#)

**The Sky is Falling!! (Continued)**

Moreover, with record levels of worldwide industrial output today, John Shanahan, of the Alexis de Tocqueville Institute, says, "Over the last 18 years, the government's own satellite data and balloon measurements show a very slight cooling". Cooling? It makes you wonder, then, what the political or economic agenda is behind this rush to accept global warming. I wonder why warming activist Stephen Schneider, in a surprisingly honest statement about his dishonesty states: "We have to offer up some scary scenarios...with little mention of the doubts one might have. Each of us has to decide what the right balance is between being effective and being honest."(!!!!) Is it any wonder, then, that some who do know the truth have referred to global warming as "the mother of all environmental fables"?

Well, if it's not global warming, there's always other things to worry about. How about the sky falling on your head? Does anything strike you as odd about this sentence, which appeared in a local newspaper recently?: "About 2,000 asteroids pose a potential threat to Earth, but fewer than 10% of them have been discovered."

Maybe I'm blind, or dense, or in need of help in some way - but I have to ask: How do we know that there are 2,000 asteroids that could threaten the earth --- if fewer than 200 have been discovered?!! What scientific data would there be to indicate such a conclusion? I wonder if these are the same scientists who have everyone all worried about global warming. I'm suspecting that it might be the same scientists that tell us that we evolved. The trend seems the same: find a scrap of evidence, then build up a huge case, then get all the sheep moving toward it. Ba-a-a Ba-a-a!

200 asteroids = 2,000 asteroids, huh? I'm going to go and see if the \$10 bill is still back on my dresser. I hope it is, because if it is, perhaps it means that there is really \$100 sitting there

In Christ

**SPIRAL GALAXIES AND A YOUNG UNIVERSE**

The Bible tells us that “the heavens declare the glory of God and the firmament shows His handiwork.”

Astronomy is one of my passions. I love looking through telescopes and seeing the incredible and beautiful things God has made and placed throughout the universe for His glory.

Researchers estimate there are at least 170 billion galaxies in our observable universe. And each galaxy is made of billions or trillions of stars. The number of stars in our universe is just mind-blowing.

One type of galaxy, the kind we’re going to look at today, is called a spiral galaxy. Our own Milky Way is a spiral galaxy. These galaxies have a dense cluster of stars in the middle and arms that spiral away from that center.

Since the 1930’s astronomers have noticed a problem. The outer stars seem to take more time to complete their orbit than the central portion of the galaxy. This means that, after a few rotations, the spiral arms will lose their shape and basically disappear (as the galaxy winds up).

If the universe is billions of years old there shouldn’t be any galaxies with a spiral shape left and yet we find them all over the universe, including our local group. Could this be an indicator that the universe isn’t 13.7 billion years old?

Milky Way Galaxy

Now, to make the problem worse, galaxies that are over 10 billion light years away, and therefore thought to be the youngest galaxies we’ve observed yet, are virtually identical to galaxies that are close by (the ones thought to be much older)! Why has no stellar evolution occurred over such a long period of time? And it gets worse! The really visible arms of spiral galaxies contain a lot of blue stars. Blue stars are bright and hot and thought to burn through their fuel relatively quickly.

But if the universe is billions of years old, why are there still blue stars everywhere we look? All sorts of ideas have been thrown around, from collapsing gas clouds to dark matter, and we’ve looked at those in other videos, but the Bible gives us the answer to all three of these problems.

**SPIRAL GALAXIES AND A YOUNG UNIVERSE (CONTINUED)**

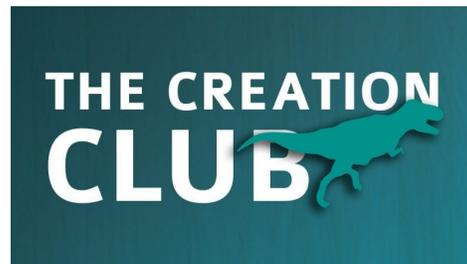

The universe isn't billions of years old! God created the stars, and everything else about 6 thousand years ago.

We still have spiral galaxies and blue stars because we live in a young universe where we would scientifically expect to still see spirals and blue stars. A young universe that declares the glory of the Creator.

I'm David Rives... Truly the heavens declare the glory of God.

**Does God Believe (Continued)****Part 2: - The geologic column is held by evolutionists to be the main evidence for evolution:**

The geologic column is believed by evolutionists to be the main evidence for evolution, as it supposedly shows the evolving of animals' life-changing from one kind of animal into another kind of animal.

The idea of this geologic column was first created as a drawing, which assigned expected years of time passage as represented by expected layering. They next assigned fossils to each layer they believed represented their idea of how evolution occurred. They then assigned dates to the expected formation of each layer based on a slow layering, which they believed occurred millions or even billions of years ago.

One major problem exists with their concept, **this complete layering does not exist anywhere on this earth!** It only exists on the pages showing it in the evolutionary textbooks that they have created. Over years of research, they have found all the proposed layers on selected multiple sites on this earth.

If this is true, then each layer should contain many thin layers representing the time passage taken to form each layer. Then the fossils found in each such layer would correspond to when evolution had created the animals alive at that time. There would be no mixing of animals in each layer each layer would only contain animals living at that time. There could be no mixing of the types of animals either as this does not allow for catastrophic events to occur, as this turbulence would distort the animals that evolved by that time in earth history.

Problems exist with this somewhat tranquil concept, as **most of the layers identified contain both land-dwelling and marine life animals intermingled** in every layer after maybe the first three layers.

**The Cambrian explosion:**

Another problem is known as the "Cambrian Explosion," which is so named because the Cambrian layer is the first layer showing life forms and it contains over (160 species) (40 different phyla) of animals that have physical structures which are very complex, such as backbones, and complex eyes. The layers immediately below this layer do not contain any animals that could possibly be the predecessors of these creatures, in fact, little to no life forms are contained in these layers. It seems that life just "exploded" into existence with no previous life forms being in existence.

Since most of the geologic layers are sedimentary rock, it stands to reason that these layers were formed by a flood, as that is how such rock layers are formed on the earth today. So, the evidence points to very catastrophic events occurring on the earth several times to account for the formations. However, normal local floods do not produce catastrophic enough events to form extremely large layers that are found on this earth. One example is the Tapeats Sandstone layer that covers most of the North American continent and is from 100 feet to 330 feet thick and has been traced to flow onto other continents. **This layer contains fossils of marine dwelling creatures, as it is one of the lowest layers.** Many local, even huge local floods could never be catastrophic enough to develop such a layer.

### Does God Believe (Continued)

This layer is the first layer on top of the great unconformity, and it covers all the continents on the earth. As previously stated, these first layer contain marine life creatures. So, how can this be, as this would indicate the entire earth at this time would have had to be covered by water. If this is true and if many millions of years pass as the next couple of layers are formed. When did the dry land appear, as all geologists agree there was Pangea a large land mass that eventually split into the seven continents, we see on the earth today?

**From the Internet:** The Great Unconformity (GU) is one of geology's deepest mysteries. It is a **gap of missing time in the geological record between 100 million and 1 billion years long**, and it occurs in different rock sections around the world.

### **If there was a worldwide Flood formation then such a layer could certainly be accomplished!**

If the earth became covered by water, there would be devastating consequences as the water would seep into areas where volcanic action is taking place and cause huge steam explosions when the water intermingled with the lava flows. Such explosions could cause the ocean floors to split the earth and form continents that would be moved apart from the original land mass. Evolutionists and creationists agree that there was once only one large land mass, usually referred to as Pangea. Under worldwide Flood conditions, the splitting of the earth could/would have caused the faults found around this world and offers an explanation for these formations we now call continents. This splitting would have occurred as part of the Flood, and thus, would have happened just about 4500 years ago. Not requiring millions or billions of years to occur.

### **Mountain ranges formed as part of the Flood!**

With this rapid splitting of the earth occurring there would have been action and reaction occurring when the new land mass moved away from the main mass, it would then have by reaction been moved back quickly to collide with the main land mass. This action would have caused mountain ranges to be formed just a short way back from the edges of the colliding continents, which is what can be observed on many of the continents today.

If the splitting occurred as the evolutionists describe it would have been very slow there would have been little or no action/reaction occurring, and thus would not result in the formation of coastal mountain ranges, as we observe today on many continents!

The layering we observe on the earth today shows evidence of extreme catastrophic events or of an extreme catastrophic event, and **a worldwide Flood offers the best explanation of such an event.** The evolutionists claim the geologic layers were formed in very serene environment or environments, as they say, "The Present Is The Key To The Past!" This belief is also known as uniformitarianism. **This principle states that geologic processes that occur today are similar to those that have occurred in the past.** The evolutionary theory states the earth works almost the same today as it did in the past.

**Does God Believe (Continued)**

The formation of the geologic column we observe today shows obvious catastrophic results, and it fits best with a causal effect being catastrophic in nature, not a simple layering process in a serene world as believed by evolutionists. If it were accomplished this way no coal and oil deposits could be formed, as huge accumulations of animal and plant life must be covered quickly by sediments to allow the fermentation required to form the coal or oil in a protected environment. If the plants and animals were buried slowly in thin layers the material would just decay and no coal or oil would have been formed!

To form the amount of coal and oil deposits found around this world would require that several forests would have to be suddenly covered by sediments deep enough to form layers that would settle and dry out becoming a layer of sedimentary rock that has encased the formation that can now become either coal or oil. It does not take millions of years to form coal or oil, it can be accomplished in less than a month in a laboratory setting. It has been estimated that today on this earth there only about three percent of the foliage required to produce the amount of coal and oil that has been discovered. This indicates that the earth of today is vastly different than it was when the coal and oil deposits were laid down. This goes against the idea that these deposits were formed on an earth that is very similar as it is today, which is what evolutionists believe.

The geologic column we all observe today screams of being formed by several catastrophic events, or by one extreme catastrophic event, it does not indicate it could have been formed by uniformitarian day-by-day simple accumulations of dust sediments for billions of years. If it were there could be no fossils for us to dig up, and there could be no oil or coal deposits.

**Part 3:- The concept of evolution is clearly refuted both by Scripture and true science.**

If you are reading this article and ascribe to the truths as found in the Bible, then read what was written in Psalm 102. *In the beginning you laid the foundations of the earth, and the heavens are the work of your hands. They will perish, but you remain; they will all wear out like a garment. Like clothing you will change them and they will be discarded. But you remain the same, and your years will never end.* (Psalm 102:25-27).

This remarkable passage, quoted also in [Hebrews 1:10-12](#), anticipates the famous **second law of thermodynamics, or law of entropy, indicating that everything in the physical universe is growing old and wearing out.** God created everything in the beginning, winding it up like a great clock, so to speak. Because of sin and the curse, however, it has been running down and “perishing” ever since. Jesus also said, *“Heaven and earth shall pass away”* (literally “are passing away”) ([Matthew 24:35](#)).

This universal scientific law is also anticipated in Isaiah 51:6: *“The earth shall wax old like a garment, and they that dwell therein shall die in like manner.”* That is, the law of decay and death applies both to the earth and its inhabitants. **The concept of universal evolution is clearly refuted both by Scripture and true science.**

**Does God Believe (Continued)****Part 4: - This seems like the worst of times!**

I wish to share the following only as an indication of my personal confusion about the status of our country today in relation to recent events that are disappointing to me as an old person who has lived my entire life in the State of Ohio, USA. **This seems like the worst of times!** In the USA today we are only allowed to teach the evolutionary concept that humans are just the most advanced animals in this world today in our public schools.

**Our laws allow women to end a pregnancy by killing the unwanted forming human being** by abortion, and so far, we have killed over 65 million forming human babies that would have become citizens of the USA, if they were allowed to be born. This number is low, as this only includes the reported surgical abortions, it does not include those aborted by taking some abortion pill or other non-surgical procedure.

Taking some pill(s) can be injurious to the female who is taking them, so it causes me to wonder if the Right to Choose movement really has the safety of the female in mind? Also, the procedures required in surgical abortion are also dangerous, and may have lasting negative effects on the female. So, it seems that any abortion has some possible negative effects on the female, therefore, is abortion really the best for the prospective mother. This does not even consider the possible negative lasting mental effects on this prospective mother and/or father!

**From the Internet:**

Freedom of Choice Act - Declares that it is the policy of the United States that **every woman has the fundamental right to choose** to: (1) bear a child; (2) terminate a pregnancy prior to **fetal viability**; or (3) terminate it **after fetal viability** when necessary to protect her life or her health. According to Webster's Encyclopedic Unabridged Dictionary of the English Language, viability of a fetus means it having reached such a stage of development as **to be capable of living**, under normal conditions, **outside the uterus**.

Of course, it does not even seem debatable that if most aborted babies were allowed to develop to full term, they would be delivered as complete and healthy babies, and could live a full life in this world! The life God has allowed to form would become a human being and thus, killing it would be considered murder! **From the Internet:** I believe this is what our founding fathers spoke of in our Declaration of Independence when they wrote: "**We hold these truths to be self-evident**, that all men are created equal, that **they are endowed by their Creator** with certain unalienable Rights, that **among these are Life**, Liberty and the pursuit of Happiness."

Laws are already in place to protect the female's right to say no to the sexual advances of someone who is planning to rape her. This is mentioned here as this is meant to allow the woman the right to choose whom she will have sex with. Many people believe the woman should have the right to choose to abort a baby conceived through incest or rape. Most abortions are not being performed on women who have been impregnated by someone they have had sex with that was not allowed by their own choice! **Most abortions are the result of consensual sex.**

Does God Believe (Continued)

**Part 5: - US citizens 18 years old and older to be able to buy weapons of mass destruction**

We allow almost anyone 18 years old and older to be able to buy (**long guns**), which include weapons of mass destruction, which are commonly used by a person who decides they want to go into a school, church or store where many people will be enclosed and use their weapon(s) to shoot as many people as possible before they are stopped. This has become a common event in the USA, as there have been several hundred such events occurring already this year. There can only be one type of use for such weapons. The one always being used is to kill individuals who are just shopping or attending a school. The other use would be to help protect the USA if it is being attacked by land forces trying to take over our country. This type of attack is very unlikely, as if war breaks out on a major scale, it will likely come as a nuclear attack from the sky by long range rockets.

Gun owners or collectors want to be able to buy such mass destruction weapons in many cases just to have them. They may or may not be a member of a group that would plan to come to the defense of the USA if we are attacked by military forces. I do not know the laws for allowing hunting of selected animals in the USA, but it is unlikely it is legal to use such weapons to hunt down and kill animals. Thus, such weapons cannot be used for normal animal hunting in this country.

The days of having a militia to protect our country have likely passed. We see today how futile it is for a country to band together and try to defend themselves from another country that has superior weaponry, as is happening in Ukraine today!

It is sad to say but it seems to indicate that most people in the USA today do not consider human life as being a Special Creation from God. We have an immortal soul Jesus created in us at a time called “In the Beginning,” which sets us apart from the animals, which were created for the support of mankind. We were created to give glory to God by how we conduct ourselves, and God planned to live with us and be our God. However, sin came into the then perfect world, and thus required us to need a Savior for our souls to again join with God and be taken back to Paradise.

Let’s let Paul have the last words here. *The wrath of God is being revealed from heaven against all the godlessness and wickedness of men who suppress the truth by their wickedness, since what may be known about God is plain to them, because God has made it plain to them. For since the creation of the world God’s invisible qualities—his eternal power and divine nature—have been clearly seen, being understood from what has been made, so that men are without excuse. For although they knew God, they neither glorified him as God nor gave thanks to him, but their thinking became futile and their foolish hearts were darkened. Although they claimed to be wise, they became fools.* (Romans 1:18-22)

### Origin of Life, Part V (Continued)

One experiment taken to the moon were several dust collectors to measure how much dust was accumulating on the moon over time. These results from the dust collectors were recently analyzed and published in Science News magazine, Jan. 11, 2014. "A new analysis of old data from the Apollo missions estimate that moon dust could form a layer 1 millimeter thick every 1000 years." See the article:

[Moon wears dusty cloak | Science News](#)

So, the next time the topic of evolution comes up you can politely, and confidentially state evolution is impossible. The DNA chemicals cannot form and connect in the presence of water. Only God can create life.

And only the Lord Jesus Christ can give you eternal life. "If you confess with your lips Jesus is Lord and believe in your heart that Jesus raised Him from the dead, you will be saved" Romans 10:9.

**The Know Your Dinosaur Game for kids to play at CRSEF events.**

**"Be Fruitful and Multiply" (Continued)****Judgment of the Nations**

In a world that denies God and all of His commandments, we should expect what we are facing, judgement of our nation is exactly what we are promised in Romans 1.

*<sup>21</sup> For though they knew God, they did not glorify him as God or show gratitude. Instead, their thinking became worthless, and their senseless hearts were darkened. <sup>22</sup> Claiming to be wise, they became fools <sup>23</sup> and exchanged the glory of the immortal God for images resembling mortal man, birds, four-footed animals, and reptiles <sup>24</sup> Therefore God delivered them over in the desires of their hearts to sexual impurity, so that their bodies were degraded among themselves*

Romans 1:21-24 (CSB).

Not only our current ruling government administration but also the "80 million" people, many of them who would call themselves Christian, are responsible for voting for them into power, need to repent and turn from their sinful ways and turn back to God and His commandments. We as a nation will reap what we sow, the past year and a half has been evidence of that. Paul was also clear when he wrote to the Romans about what will happen to those who continually rebel against God.

*<sup>24</sup> Therefore God delivered them over in the desires of their hearts to sexual impurity, so that their bodies were degraded among themselves. <sup>25</sup> They exchanged the truth of God for a lie, and worshiped and served what has been created instead of the Creator, who is praised forever. Amen.*

*<sup>26</sup> For this reason God delivered them over to disgraceful passions. Their women exchanged natural sexual relations for unnatural ones. <sup>27</sup> The men in the same way also left natural relations with women and were inflamed in their lust for one another. Men committed shameless acts with men and received in their own persons the appropriate penalty of their error. <sup>28</sup> And because they did not think it worthwhile to acknowledge God, God delivered them over to a corrupt mind so that they do what is not right.*

Romans 1:24-28 (CSB)

**Humanism (The God of Self)**

In our current humanistic world, personal autonomy is king, everyone wants to eat, drink and be merry or sing the Sinatra song, I Did It My Way! When there is no standard other than human thought and reason, chaos will reign supreme. That's why God gave the Scriptures to be the revelation to His created beings, it is the only standard for man.

*<sup>16</sup> All Scripture is inspired by God and is profitable for teaching, for rebuking, for correcting, for training in righteousness, <sup>17</sup> so that the man of God may be complete, equipped for every good work.*

2 Timothy 3:16-17 (CSB)

**"Be Fruitful and Multiply" (Continued)**

In the Book of Genesis alone the phrase "be fruitful and multiply" is stated nine times, referring to animals twice; pre-flood (Genesis 1:22) and post-flood (Genesis 8:17), also to Adam and Eve (Genesis 1:28), Noah and his sons; twice (Genesis 9: 1,7), Abraham (Genesis 17:20), Isaac to Jacob (Genesis 28:3), and Jacob two more times (Genesis 35:11, 48:4). It seems to me to be a very important blessing, but I see it as more of a command and also a blessing.

In the world, as well as in America, the past century has shown us a culture contrary to the "be fruitful and multiply" command from our Creator. In a world that believes in the pursuit of self-happiness and overpopulation, the promotion of having children is totally against the current culture. How many of us, especially those who consider themselves Christians with a Biblical worldview have ancestors that had large families. If we believe what God reveals to us through the scriptures, we would understand that having children is a blessing from God and that we should glorify Him by raising those children in homes that exemplify God's values and commandments. This would be the way that we show an unbelieving world that, God is good just as the Gospel promises.

**Biblical Marriage**

In Christian Theology, God uses marriage to show that the church is becoming the bride of Christ, the terminology used in describing the relationship of Christ and His church is a demonstration of a Jewish wedding, so when the secular culture attacks marriage it is a direct assault on God.

God as our Creator also tells us where male and female come from in Genesis:

*<sup>27</sup> So God created man  
in his own image;  
he created him in the image of God;  
he created them male and female.*  
Genesis 1:27 (CSB)

**Gender Theology**

Even though secular and Christian biologists can scientifically explain the difference between male and female using genetics and physical properties, our current political leadership states that males can decide to be female and that females can decide to be male. Our current government regime in America as well as most of the rest of the western world also promotes teaching these things to elementary education students without their parents' knowledge in the secular public education system.

**"Be Fruitful and Multiply" (Continued)**

**Abortion**

What I believe is the greatest sin we as a nation are committing against our Creator is that of abortion, which was ruled to be a precedent in January of 1973 when the liberal-leaning Supreme Court ruling in favor of a women's right to have an abortion became the law of our nation. Before 1973 abortion was left up to each of the 50 states to determine, allowing for the sentiment of voters in each state. It is important that since 1973 Congress has been unable to make abortion a legal right by passing a law, which is the only way that it could ever be a Constitutional right.

As we head into the summer of 2022, never has the political atmosphere in America been so heated, except for the time before the Civil War. Because of an illegal and unprecedented leak of a justice's early opinion that suggested that Roe vs Wade may be overturned, the political left is enraged and the political right is bracing for a return to the summer of 2020. Whether either side gets what they want, the fact is that in America around 1,269,195 babies have been murdered each year since 1973, and most of these can be classified as a sacrifice, by the mother for a variety of reasons, which would be considered the same as child sacrifice of ancient civilizations to their gods.

<sup>21</sup> *"You are not to sacrifice any of your children in the fire to Molech. Do not profane the name of your God; I am the LORD. Leviticus 18:21 (CSB)*

All this being said, I want to apologize to anyone who might be offended by what I have written in this article, although it doesn't appear so, I am writing this with a heavy heart because I fully understand the weight of the subject matter of this article. Please let me begin to pull this all together by using Jesus' words about the love He had for Jerusalem towards the end of His ministry on earth.

**Jesus's Love for Jerusalem**

<sup>41</sup> *As he approached and saw the city, he wept for it,* <sup>42</sup> *saying, "If you knew this day what would bring peace—but now it is hidden from your eyes"* <sup>43</sup> *For the days will come on you when your enemies will build a barricade around you, surround you, and hem you in on every side.* <sup>44</sup> *They will crush you and your children among you to the ground, and they will not leave one stone on another in your midst, because you did not recognize the time when God visited you."* Luke 19:41-44 (CSB)

**Jesus's Lamenting over Jerusalem**

<sup>37</sup> *"Jerusalem, Jerusalem, who kills the prophets and stones those who are sent to her. How often I wanted to gather your children together, as a hen gathers her chicks under her wings, but you were not willing!"* <sup>38</sup> *See, your house is left to you desolate.* <sup>39</sup> *For I tell you, you will not see me again until you say, 'Blessed is he who comes in the name of the Lord!'"* Matthew 23:37-39 (CSB)

**"Be Fruitful and Multiply" (Continued)**

My heart is that God's people will hold to Christ's commands and that God would open the eyes, minds, and hearts of unbelievers as well as those of us who trust in Christ and are still young in our sanctification process. Christians need to reflect the love of God to everyone around us as we follow Christ in a lost world.

So in closing let me please cause all Bible-believing Christians to search the Scriptures and pray to God before you vote for any of your municipal, states, or especially federal leaders running for any political office. Voting has consequences. Remember what Scripture tells us using an agricultural metaphor:

<sup>7</sup> *Don't be deceived: God is not mocked. For whatever a person sows he will also reap, Galatians 6:7 (CSB).*

Please LORD come quickly!

**Prologue**

This article was written a week or so before the monumental Dobbs vs Jackson Women's Health Organization that was decided and made public on Friday, June 24th, 2022. This decision reverses the Roe vs Wade decision that I discussed in an earlier chapter. This decision although very controversial, should be an exciting event for Christ's followers because the murder of innocent unborn children must never be tolerated in a civil society.

Christians have been praying for this decision for the past 50 years, and this should be a time when all Christians should be thankful that God has been graceful enough to answer those prayers. Although this decision does not make abortion illegal, it does force the governing of abortion back to state control, which makes Christian voting all that much more important.
